

# RCA Forum Stormwater Working Group

Report to RCA Forum  
1 December 2006

Graeme Tong

# Membership

- Retirements of Alan Watton and Gary Main, chair and deputy chair of the Group
- Need additional members
  - South Island?
  - Rousing people with real interest in stormwater issues, such as the problem of whether to treat or not

# Workshops

- To educate, inform, and consult
- Terminology and devices available – what works well in what situations
- Sensitive receiving environments
- Draft Transit Stormwater Guidelines
- Regional requirements and issues
- Research – the NIWA proposal

# Workshops 2007

Wellington	7 February
Christchurch	8 February
Gore	9 February
Palmerston North	14 February
Takapuna	15 February
Rotorua	16 February

# Workshops 2007

## Target audience

- Road asset engineers and managers
- Stormwater engineers and managers
- Consultants
- Contractors
- Regional council regulators
- Researchers

# Workshops 2007

Costs –

Budget for break-even on \$60,000 exp.

= 220 delegates @ \$275

Discounts –

- if you attend and bring your stormwater manager with you
- three or more from the one organisation

# Workshops 2007

Why attend? Because -

- you said you wanted this sort of information when you responded to our questionnaire
- if we don't fix stormwater ourselves, regional councils and/or Government will
- your chance to learn, share knowledge, and guide the work of our Group

# NIWA Research

- Project funded by FRTS, focus major rural roads
- Need to define the trigger for action on SW issues
- Need data on lower volume and urban roads
- Discuss at the roadshows
- Funding through Land Transport or RCA Forum –budget for this

# Summary

- New members for the Group
  - one north, one south
- Workshops –
  - what else do you want included?
  - commit now to attend with SW colleagues
- NIWA research
