

Attendance Sponsorship

The Road Controlling Authorities Forum (RCAF) provides an opportunity for Local Authorities and the New Zealand Transport Agency staff to meet three times per year to consider issues that affect the ownership, planning and funding, operations, management and improvement of the countries transportation networks.

Mostly the forums provide presentations that cover a broad range of issues from legislation development, Ministry updates, rules changes, research and guidelines, work group activities and topical issues influencing the delivery of procurement and services.

The forums provide an opportunity for staff development through the attendee's exposure to influences affecting road controlling authorities and network management. They also provide a networking opportunity for the attendees and their peers.

The forum encourages new attendance from its membership by offering younger or less experienced staff, travel funding sponsorship to attend one of these forums and in doing so hopes to encourage future or ongoing participation.

To register for this offer, please complete the registration form on the website (www.rcaforum.org.nz) and send to the RCA Forum administration team (admin@ingenium.org.nz) indicating that the registration is subject to travel sponsorship being received. Confirmation of receipt will be within two working days.
