

Summary of the major changes to the 2nd Edition LRS

- Removal of delegated authority for Traffic Controllers to approve Traffic Management Plans
- Modified and included additional Traffic Management Plans
- Modification of standards to better accommodate low volume roads and cone protected operations:
 - The layout distances table on page 18 has been changed to incorporate roads with less than 500 vpd. This new table is also included in Appendix B – TMP Form.
 - Time allowed for Cone Protected Mobile operations has been extended from 15 mins to 1 hour
- TMC approval is now required for the following one lane each way diagrams:

32	Traffic not crossing road centre	Signs on median - No speed signs
33	Traffic not crossing road centre	Signs on median - With speed signs
43	In median	Signs on median - No speed signs
44	In median	Signs on median - With speed signs
- Added new form to be used when applying for formal approval of TMP - Appendix B(i)
