

Stormwater Group

Representation:	Members:
Local RCA – urban/rural, North/South Island	Currently vacant
TLA stormwater	Currently vacant
NZTA	Craig Redmond, NZTA HO Dale Nicholls, NZTA Napier
NZTA	Balt Gregorius, NZTA HO
Regional council –stormwater planning/consents/monitoring	Ted Taylor, Greater Wellington RC Hayden Easton, ARC
RCA Planner	Nicci Wood, Wellington CC
Administration	Wayne Newman, Cresmere Consulting

Convenor: Wayne Newman

Group to meet approximately 3 times per year

Goal

To encourage and promote practical solutions to stormwater road run-off management, by coordinating stormwater knowledge and making it available to practitioners.

Key Result Areas

1. Put up-to-date road run-off and stormwater treatment best practice in the hands of practitioners, whether they are large or small organisations
2. Identify gaps in best practice and how to fill those gaps
3. Ensure stormwater managers' interests are accounted for in policy-making and environmental regulations
4. Participate in reviewing research to ensure useable and realistic outputs.

Year 1 target

The sector knows about SWG and uses the information on the website.

Year 2 target

All current research and best practice are identified, and any gaps noted.

Year 3 target

Any identified gaps in stormwater best practice are being addressed

Key Result Area	Target	Action Plan
1. Put up-to-date stormwater treatment best practice in the hands of practitioners	Year 3 – updated information is made available	<ul style="list-style-type: none"> ● Promulgate updated information on current research and best practice – local meetings, road-shows, website ● Measure: a survey of planners, roading and stormwater engineers to identify if they feel they have up-to-date stormwater treatment best practice “at their fingertips” (compare results with previous surveys) ● Review SRE Assessment Tool
2. Identify gaps in best practice and how to fill those gaps	Year 3 - identified gaps in research and best practice are addressed/ programmed	<ul style="list-style-type: none"> ● commission research/ development of best practice through RCA Forum
3. Ensure roading and stormwater managers’ interests are accounted for in policy-making and environmental regulations	Year 3 – relationship is maintained	<ul style="list-style-type: none"> ● ongoing relationship with MfE/MoT/regional councils
4. Participate in reviewing research to ensure useable and realistic outputs.	Year 3 – promulgate results of research - initiate/support new research proposals	<ul style="list-style-type: none"> ● Promulgate results of research through website, road-shows, RCA Forum, etc ● Identify future research needs ● Act as steering group/ peer review for newly initiated research projects
