Convenor: Wayne Newman. Group to meet approximately 3 times per year

Goal

To encourage and promote practical solutions to stormwater road run-off management, by coordinating stormwater knowledge and making it available to practitioners.

Key Result Areas

1. Promulgate and disseminate guidance on current best practice.
2. Ensure research and best practice inform policy.
3. Review research, reference documents and policies to ensure appropriate and effective outputs.

Target

Appropriate standards and guidelines are available to ensure an effective response to contaminants entering stormwater and road run-off from all sources.

Key Result Area	Action Plan
1. Promulgate and disseminate guidance on current best practice.	<ul style="list-style-type: none"> • Promulgate updated information on current research and best practice – local meetings, road-shows, website; • Investigate means of communicating with all interested parties;
2. Ensure research and best practice inform policy.	<ul style="list-style-type: none"> • Compile and condense available information; • Maintain and build relationship with MfE/MoT/regional councils;
3. Review research, reference documents and policies to ensure appropriate and effective outputs.	<ul style="list-style-type: none"> • Promulgate results of research through website, road-shows, RCA Forum, etc; • Review new research and reference documents; • Act as steering group/ peer review for newly initiated research projects.
